

## **Need an address?**

The Franklin County Addressing Authority was established by Commission Order dated August 27, 1998 which adopted a policy regarding the naming of streets, roads and applicable private drives.

With the growth in Franklin County, a uniform standard for addressing has become very important. Addresses provide a common, systematic means by which people, places and events, can be located within a community. A property address helps 911 Emergency Services to provide a quicker response time.

The Planning & Zoning Department has been designated by the Franklin County Commission to perform all addressing functions for the county, beginning 2018.

Address Request applications are available in the Planning & Zoning Department office or on our website at [franklinmo.org](http://franklinmo.org).

**You can reach the Addressing Authority (Planning & Zoning) by calling (636) 583-6369 or by email at [addressing@franklinmo.net](mailto:addressing@franklinmo.net)**
