SPECIAL PROVISIONS

1. The supplier shall furnish the truck driver a copy of the bill of lading, manifest, or truck ticket to be delivered to the representative personnel, prior to unloading, showing the following information regarding the shipment:

(a) Consignee.
(b) Destination.
(c) Type of Material.
(d) Purchase Order Number.
(e) Truck number and weights of truck before and after loading.
(f) Date loaded.
(g) Name and Location of the Source.
(h) A Certification Statement.

The certification statement shall be signed by an authorized representative of the Supplier and substantially as follows:

"This certifies that the Calcium Chloride in this shipment complies with Franklin County Highway Department specifications and the volumes shown hereon were obtained on flow meters approved by and/or certified by the State of Missouri and are correct within the specified meter requirements."

2. Flow meters shall have been calibrated within the six-month period immediately prior to any material being delivered or any time the Franklin County Highway Department representative has cause to question the accuracy of the flow meter. A flow meter acceptance shall be based on one of the following:

(a) A valid certification or seal of approval by the Division of Weights and Measures of the Missouri Department of Agricultural will be acceptable.

(b) A valid certification or seal of approval by a State of Missouri duly appointed "sealer of weights and measures" in cities or counties of seventy-five thousand populations or more will be acceptable.

(c) Certification of calibration from a commercial scale service company showing that the flow meter meets the requirements of these specifications. The Supplier shall furnish the certification of calibration to the Franklin County Highway Department's representative.

3. A lot shall consist of that quantity of material ordered for delivery to one location at one time. It shall be sampled and tested prior to intermixing with material on hand.
Acceptance of the material will be based on satisfactory compliance with this specification as determined by samples and inspection deemed necessary by the representative at the delivery site.

If samples fail to meet the material requirements on the basis of an initial sample, two additional samples shall be taken from the lot and tested. Both of the additional samples must meet the requirements, or the lot will be rejected. Rejected product will be returned at the Contractor’s expense.

The department will not accept loads which exceed the legal limits. Overweight loads that are emptied before rejection will have the tonnage in excess of the legal weight deducted from the invoice.

In addition to other requirements, Calcium Chloride material shall be specifically delivered to a location designated by receiving personnel, and any contamination with existing lower concentration calcium chloride as a result of delivery will be cause for rejection or payment at the lower calcium chloride concentration, at the department’s option.
